HOW DOES C-ZERO® WORK?

C-Zero® resists water. By mimicking the micro-textured surface of nature's jade leaves, C-Zero® chemists created a system that permanently binds to the fiber enabling the rapid clean-up of spills. The C-Zero® system has no impact to the fabric's hand, breathability, or appearance.

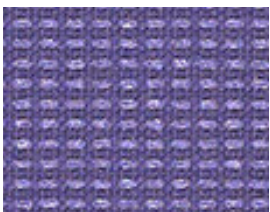

The C-Zero® Color Card offers 5 patterns in 150 colors available with the Crypton® C-Zero® performance finish. C-Zero® fluorine free finish is an industry first. It is the most sustainable fluorine free finish available today.
