

Make a clean break from traditional buffet tables by choosing our MAXX Edge® Mobile Buffet Tables. Our self-healing MAXX Edge® literally bonds itself to the table core, leaving no gap for food or bacteria to collect and no unsightly seams. This polyurethane edge provides the most durable and hygienic surface possible. With your choice of Formica or Wilsonart® laminates, this table offers an elegant, roll-away solution for portable food service. MAXX Edge® Mobile Buffet Tables are a food service solution that has never been so clean and so convenient.

FEATURES

Our MAXX Edge® Mobile Buffet Tables feature a removable storage rack and buffet tier. For convenient storage, folding legs allow these tables to be stored compactly when not in use.

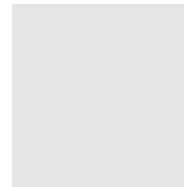

MAXX Edge® Mobile Buffet Tables can be ordered without the buffet table tier - the result is a highly portable and storable utility table for a temporary work surface.

These mobile buffet tables feature smooth-rolling casters and are easily secured using a convenient foot-brake.

MAXX EDGE® COLOR OPTIONS:
