

PS Furniture technology has reinvented the traditional “knock-down” style reception table. With patented lightweight panel technology, Revolution® Cafe Tables weigh 1/2 of the competition. They also store unlike any other cafe table - 20 tables store in only 10 square feet! What makes this work is the internal column connection, so Revolution® Reception Tables store like discs, flat against one another. 20 in 10...amazing!

LIGHTWEIGHT

Traditional cafe tables are terribly heavy, made with a particle or fiber board core, and weigh more than 40 lbs. With our patented lightweight panel technology, a 24" round Revolution® Cafe Table weighs only 15 lbs.

TRANSPORT

A single person can move 20 of our Revolution® Cafe Tables packaged in a Revolution® cart through a standard doorway (32" W) and even inside a passenger elevator!

MAXX EDGE®

With your choice of Formica® and Wilsonart® laminate finishes, plus a rich-looking 30mm profile, Revolution® tables never need to be covered. MAXX Edge® adds a perfect finish to your tables and comes in six colors.
