A REVOLUTION® IN TRANSPORT

A single person can move 20 of our new tables packaged in a Revolution® cart through a standard doorway (32" width) and even inside a passenger elevator!

Traditional cafe tables are terribly heavy, made with a particle or fiber board core, and weigh more than 40 lbs. With its patented lightweight panel technology, a 36" diameter round Revolution® table weighs only 15 lbs. That's 66% less weight!

A REVOLUTION® IN COMPACT STORAGE (20 IN 10)

You can fit 20 of our Revolution® Cafe tables (30" or 36" diameter rounds) into a cart that occupies only 10 square feet (cart dimensions are 31" W x 45" L x 72" H). What makes this work is an internal column connection made possible by patented Revolution® panel technology. So Revolution® tables store like discs, flat against one another (20 in 10). Amazing...
